The main focus of our partnership with the Department is to meet the accommodation needs of Rustenburg through the delivery to our employees of quality, yet affordable housing solutions that ensure every Impala employee can benefit from our home ownership programme. This ambitious commitment to improving the quality of life of our employees is manifested in the construction of more than 1,500 freestanding 2 and 3 bedroom units over a 3 year period. The development is now sold out, which has enabled many employees to become first time home owners.”</i></p> <p><b>IMPALA PLATINUM SUPPORTS EACH-ONE-SETTLE-ONE</b></p> <p>The main objective of Impala’s partnership with the Department addresses the GAP market that does not qualify for a full government subsidy and is considered too risky by Banks for financial assistance. This partnership demonstrates Impala’s commitment to South Africa and its people, especially to those communities in areas surrounding its operations.</p> <p>[more]</p>
