

inteliPOS

Mobile App Quick Guide

Placing an Order

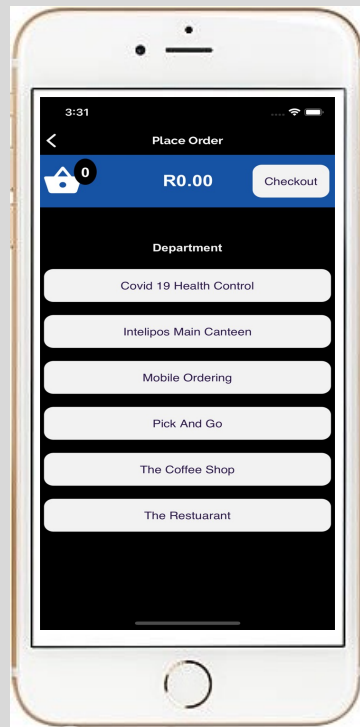

Step 1

Connect to your APP store and search for "inteliPOS" and download. You will follow an authentication process incl OTP, once concluded you are registered.

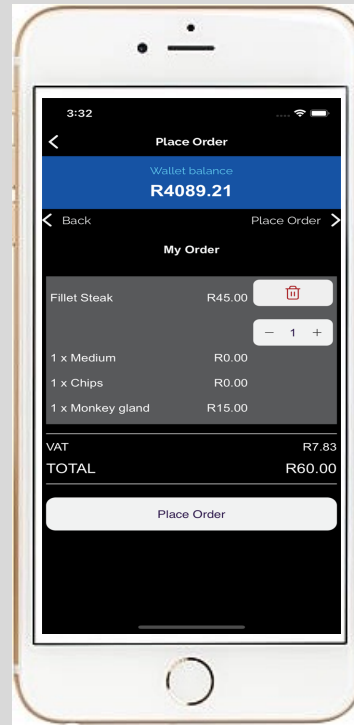

Step 2

Select order option bottom middle, then Navigate menu choice according to preference.

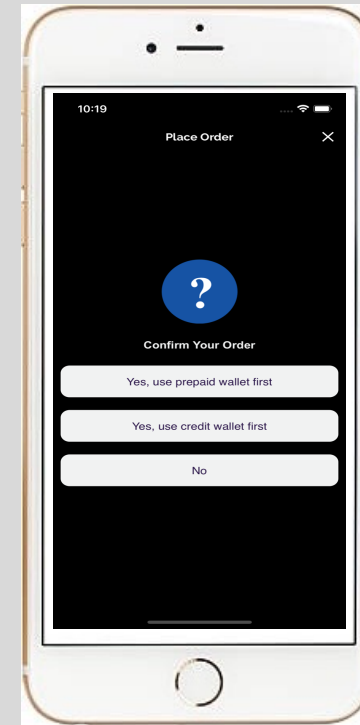

Step 3

As menu choices are selected, shopping basket indicator increments accordingly. When ready, select "Checkout" button, review order, cost etc and place order.

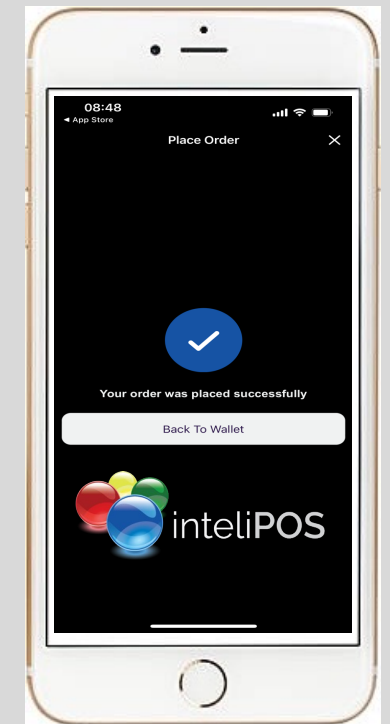

Step 4

The system now prompts the customer to confirm the order. If "No" is selected, the display reverts back to Step 3, if "Yes", move to Step 5.

Step 5

This is an acknowledgment that the order has been received and will be processed accordingly. Receipt is auto emailed to customer and order is sent to preparation area for processing.

Managing Prepaid Wallet

Step 1

Select wallet option at the bottom

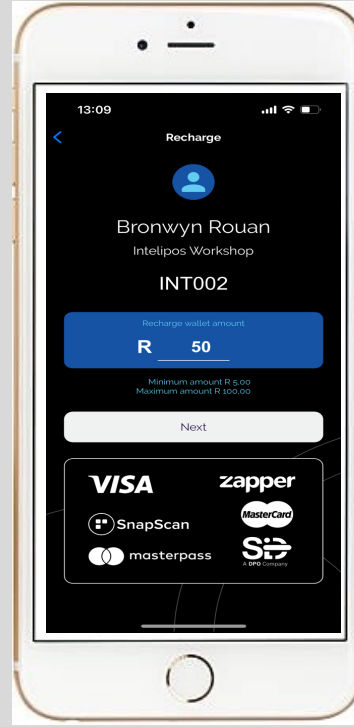

Step 2

Select Recharge Option

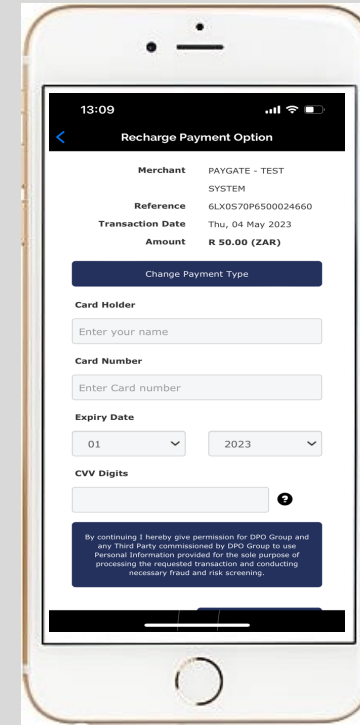

Step 3

Choose an amount to recharge your wallet with. Depending on your company's payment options you will be able to use a credit card, Zapper, SnapScan or EFT.

Step 4

You will proceed to the payment screen and enter your card details.

Step 5

You will then get a message screen informing you that the transaction has been approved or declined.
